

Speech and Hearing Science Lab

Head: Ap.Prof. DI Dr.techn. Philipp Aichinger

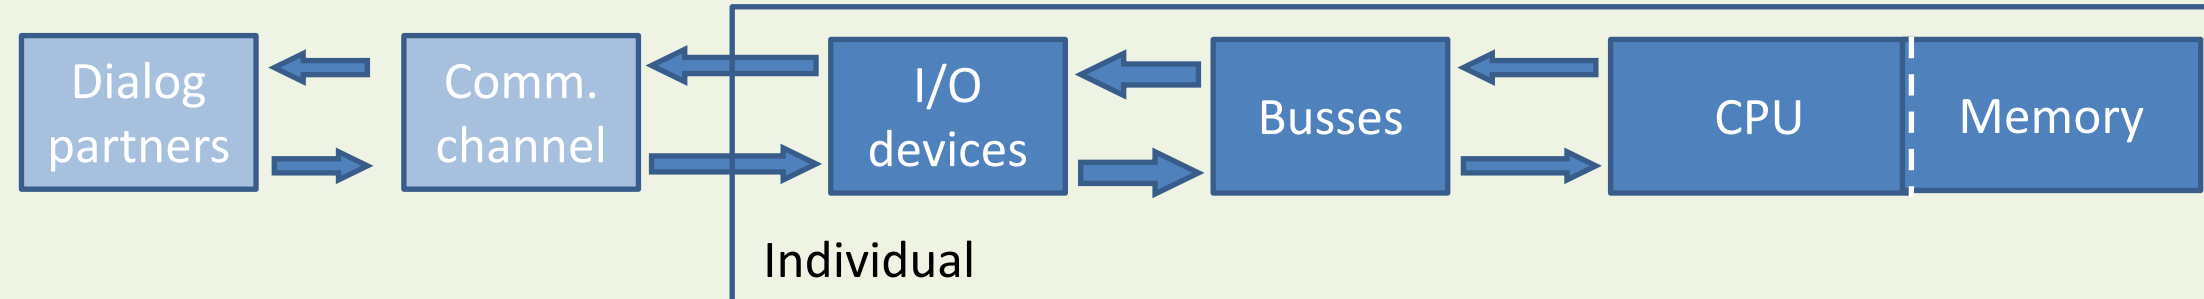

General field of interest

- Speech production
- Auditory perception

Periphery, nerves, brain

- Computer model:

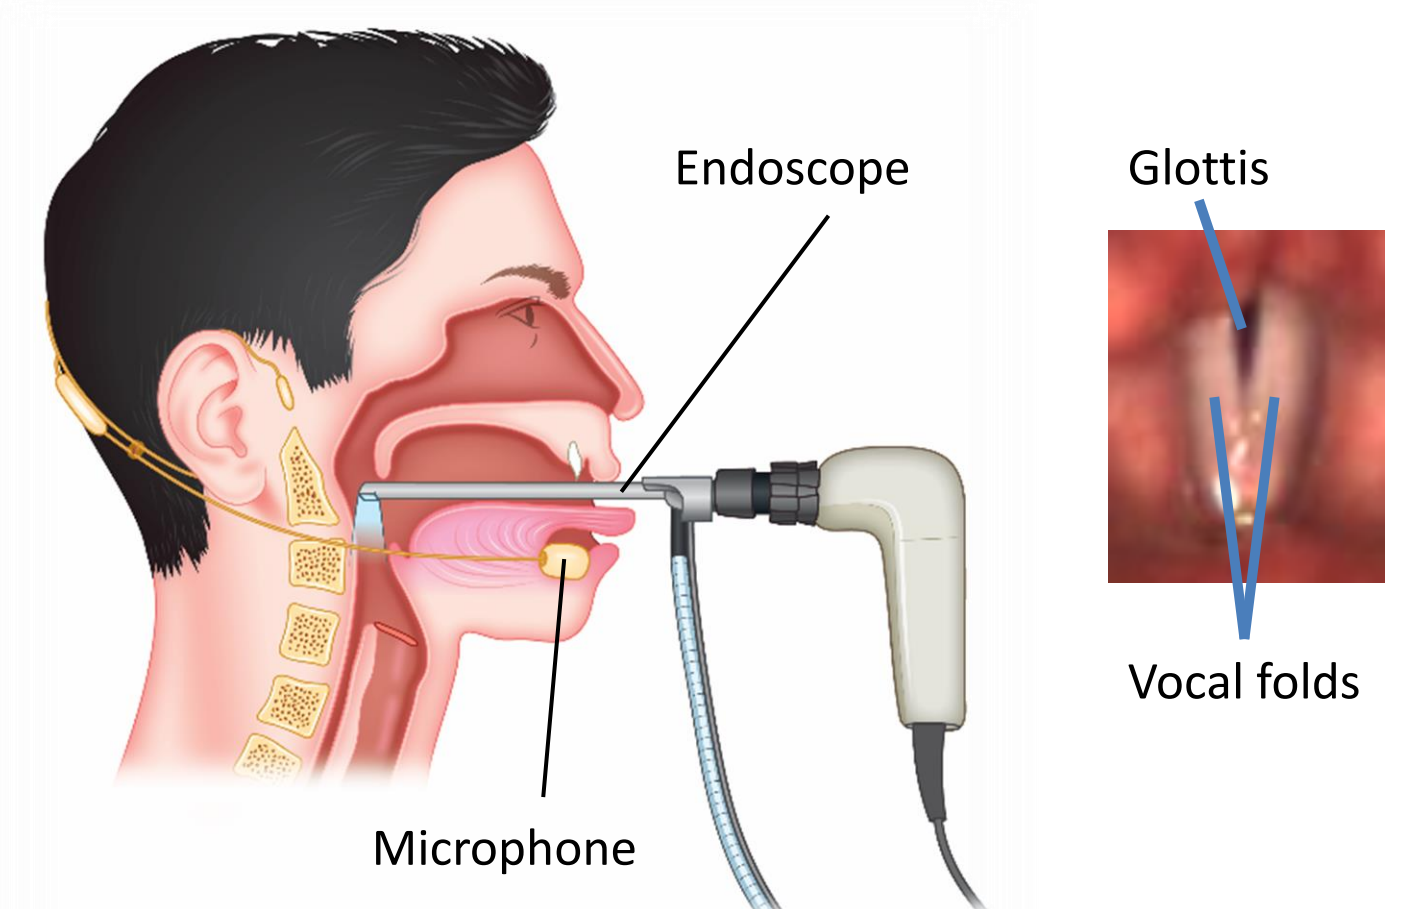

- Pathologies affecting speaking and/or hearing
⊂ communication disorders

Medical applications:

Prevention, diagnosis, decision support, therapy and rehabilitation
eHealth, biosensors, wearables, implants, ass. devices, biomarkers, ...

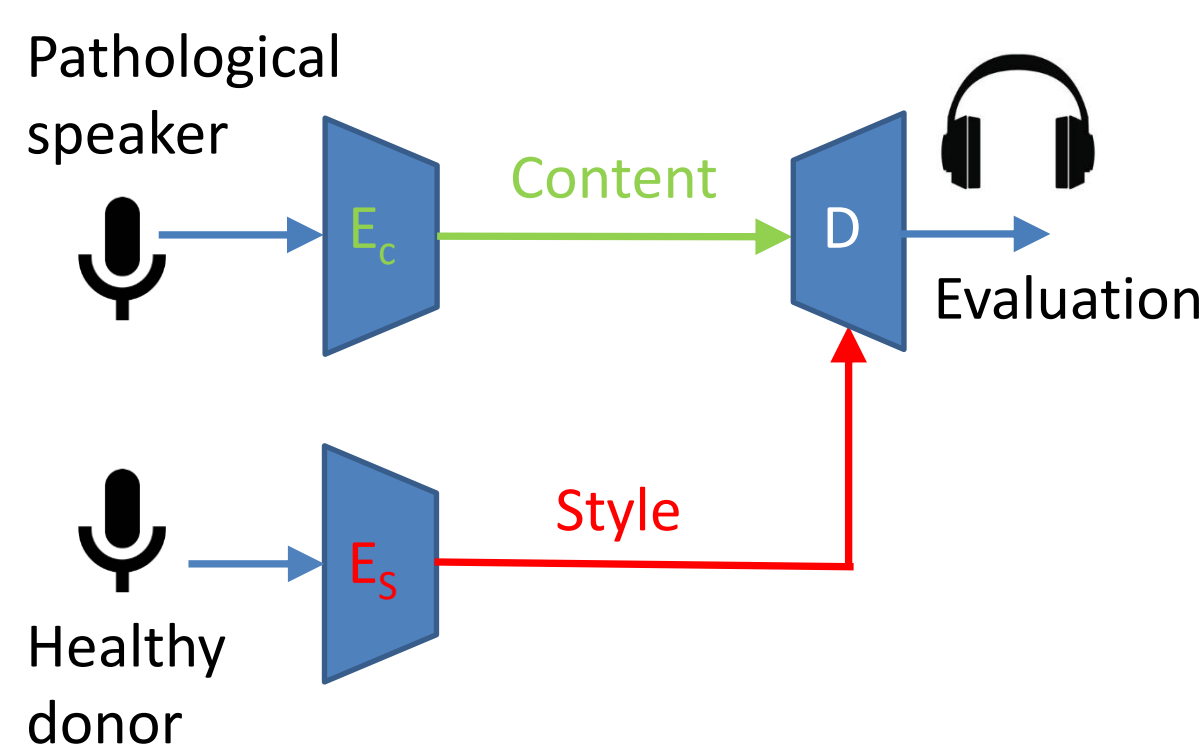

Data

- Endoscopic high-speed videos
- Microphone recordings
- Electroglottography (cf. elec. impedance tomography)
- Electronic patient records (EPRs)
- Questionnaires, patient reported outcomes (PROs)
- Action potentials / EEG
- Brain imaging, ...

Generation

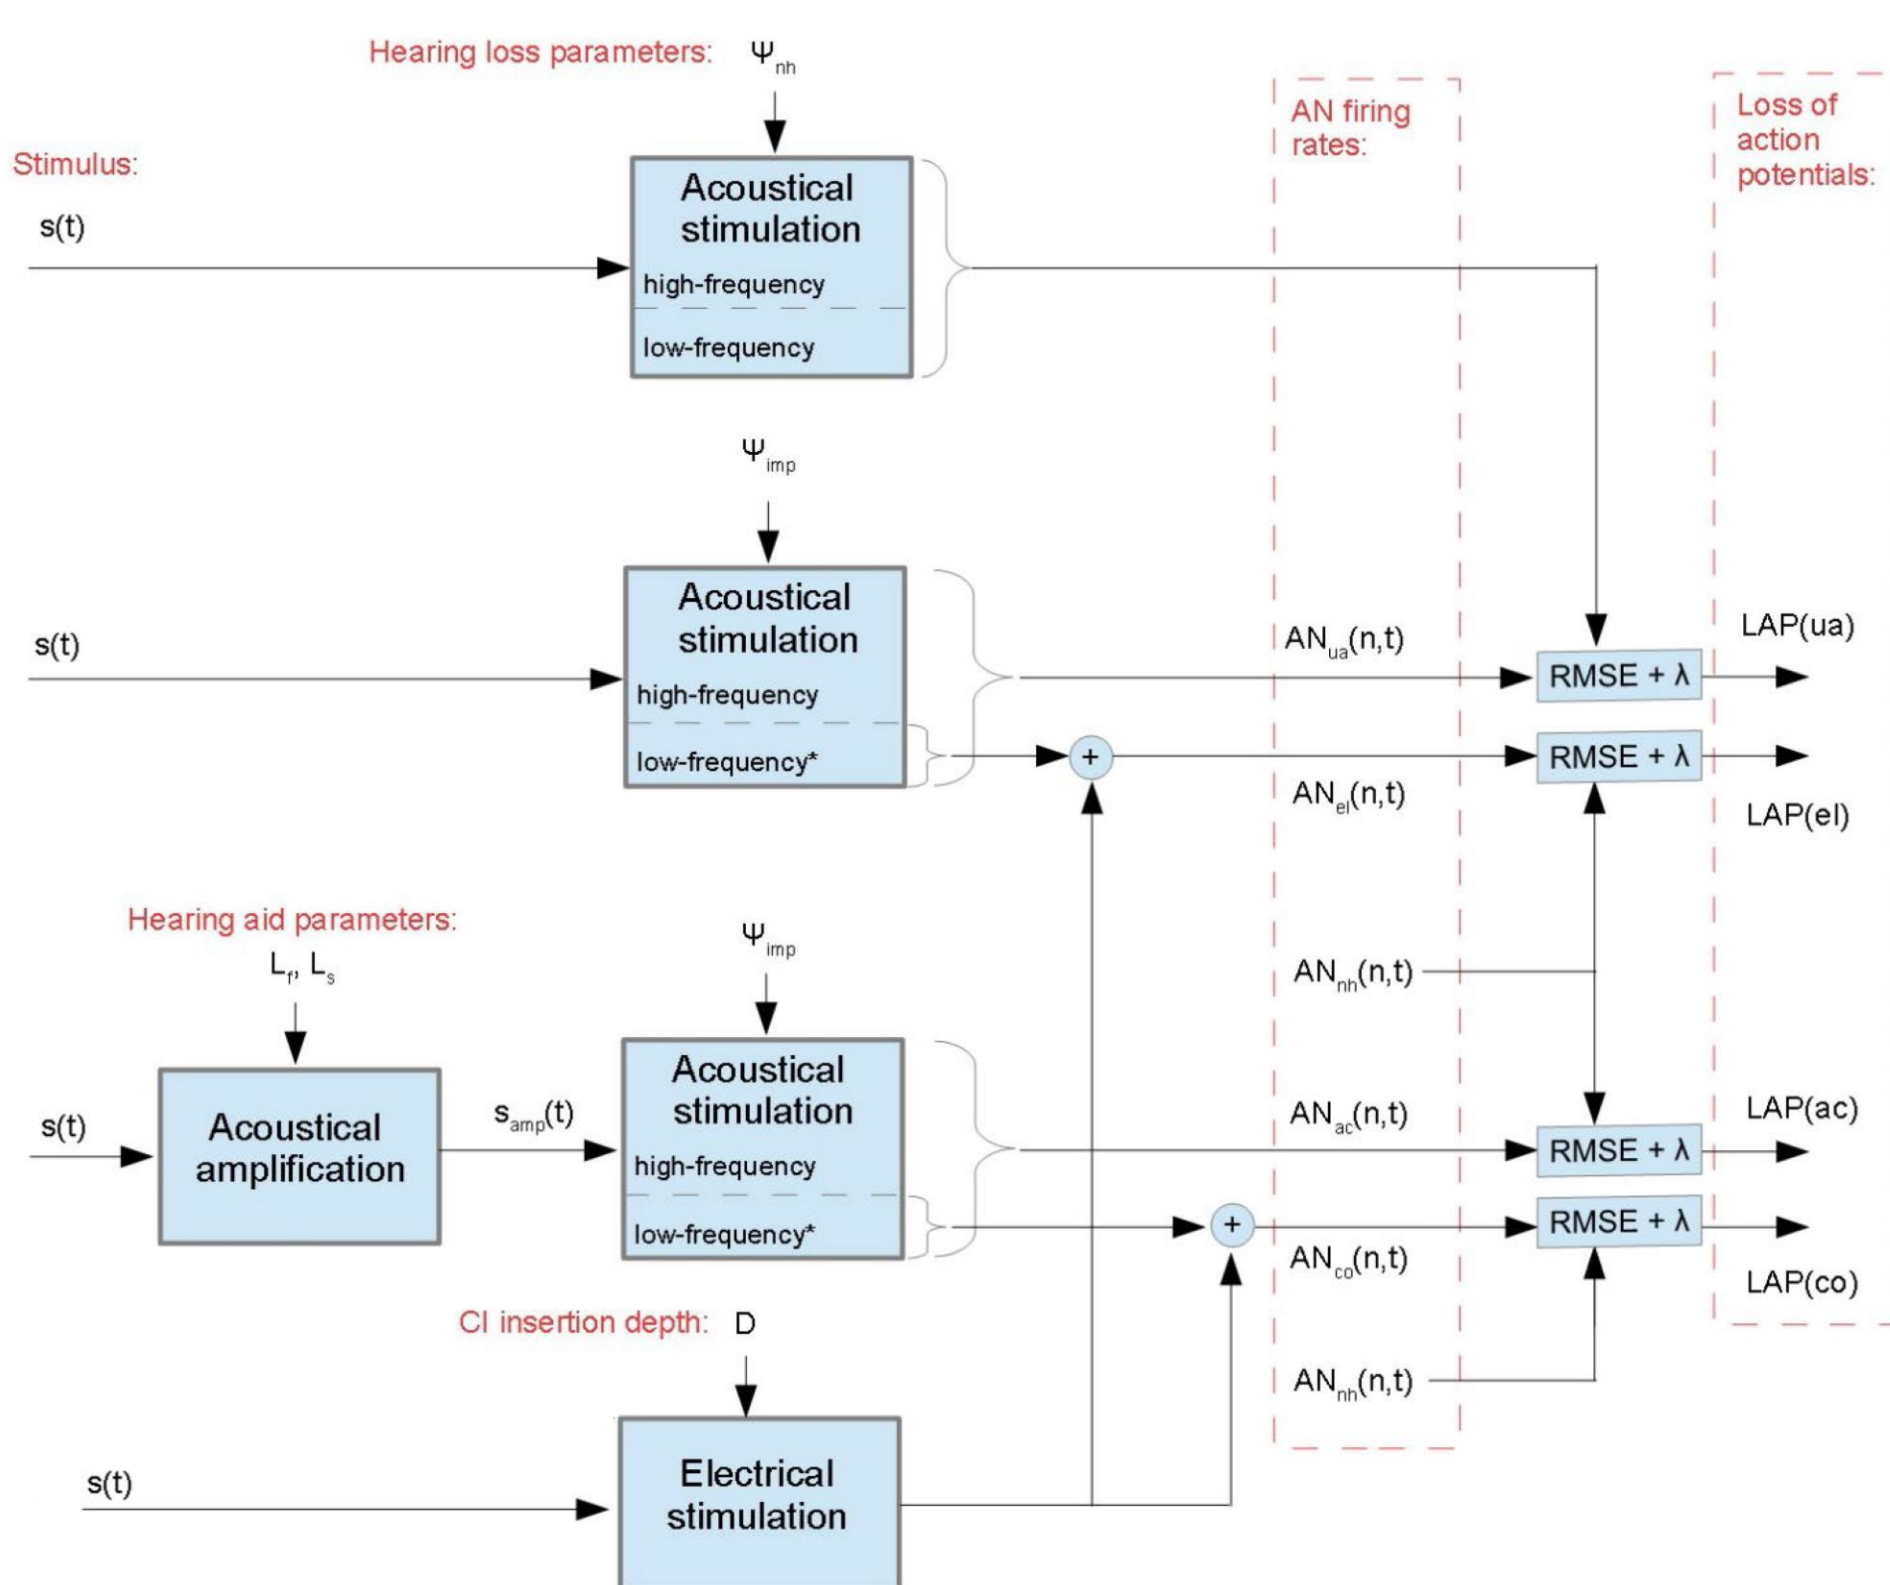

Representation learning,
Transfer learning,
Domain translation, ...

Discrimination

Simulation in digital twinning

Inverse problem in digital twinning

3D visualization
